CSU The California State University

# STEMposium 2018

## For K-12 Educators ... with an Environmental Literacy Focus

### June 25-29th ~ 8:00-3:00pm... FREE!

700 Temple Ave, Camarillo, CA 93010

*Hosted by CSU Channel Islands in conjunction with University Preparation Charter School*

**2 Academic UNITS Purchasable from CSU Channel Islands**
**Now offering a High School cohort in addition to K-8!**

## Participating teachers will...

**Engage with our coastal bioregion, explore the impact of global environmental issues like climate change on local ecosystems, and investigate the science of the shoreline at local beaches**

**Practice weaving outdoor learning and local community issues into valuable environmental literacy experiences for all students; and access learning resources that support environmentally themed *Community Action Projects***

**Experience an *5E* instructional sequence that is specific to your grade, phenomenon based, and integrated with NGSS and Common Core... ...and then collaborate with peers to create your own 5E instructional sequence with guidance from a grade-level teacher leader**

**Attend your choice of short courses on a variety of topics including a cohort for STEM coaches or anyone wanting strategies on how to share NGSS with their school site or district**

*We will use local places for context and NGSS instructional strategies for method, with environmental literacy as our goal!*
